How the program works

If offered a contract you will begin a 4 week training phase where you will familiarize yourself with our methodology and play 25,000 hands to demonstrate a baseline integration of course concepts. We have a team of coaches dedicated to mentoring you throughout your training process. Training flights consist of 4-5 players that you will learn alongside of.

After successful submission of your 25,000 hand sample you will begin on stake at D1 (50nl, unless prior history of winning at higher limits). Details about the process of moving up stakes will be given to successful applicants. Every player on the team will meet with Nick on a quarterly basis to discuss your progress and offer any feedback.

Community

We use Discord for all communication within the community. You unlock new channels as you move up divisions. Due to COVID-19 we have had to halt our team retreat plans, normally we have 3-4 trips annually.

Frequently Asked Questions

Is there a volume expectation?

Yes, you are expected to play *at least* 20,000 hands per month.

Will I receive individual one-on-one coaching?

Explicit one-on-one coaching is not included in the program.

You have full access to your CFP community in Discord where our players routinely answer questions. Patrick, the developer of the Mobius Poker Journal, does the same.

How does rakeback work?

Rakeback is considered part of your winnings and will be included in your profit splits. The same applies to bonuses.

Can I play on multiple sites?

You may add a 2nd site if you are willing to use your own funds. In return, we will increase your profit split to 60/40 on the 2nd site. The 2nd site can't be used as your primary site or detract from your volume on your primary site.

Is it okay to take time off?

Absolutely, please just make us aware of when you'll be on vacation.

Program Content

Mobius Poker Journal

Part 1: Introduction & Theory

(Sections 0-1)

Explains all the terminology and fundamental theoretical concepts you need to understand in order to use the rest of the journal.

Part 2: Protocols

(Sections 2-4)

- Section 2: River Protocols
- Section 3: Flop-Turn Protocols
- Section 4: Simplified Preflop Ranges

Summarizes the database research into a flexible baseline exploitative strategy.

Part 3: Interpretation

(Section 5)

Teaches you how to read the data in the rest of the journal.

Part 4: Data

(Sections 6-12)

Contains the Hand2Note report data.

- Section 6: Preflop HUD
- Section 7: Multi-Flop Aggregation Reports (Flop-Turn Data)
- Section 8: General River Aggression/Defense Reports
- Sections 10-11: River Aggression Reports by Line

- Sections 11-12: River Defense Reports by Line

Part 5: Additional Content

(Sections 13-17)

Contains deeper explanations of math/theory, extra data, Pio experiments, long-form articles, and video content.

- Section 13: Additional Theory
- Section 14: Additional Data
- Section 15: Pio Lab
- Section 16: Articles on Mindset and Logistics
- Section 17: Streams

Note: Parts 4 and 5 are completely optional. You can study Parts 1-3 by themselves and still have great results.

Volume Expectations

The *minimum* requirement for each *quarter* is to play 60,000 hands. At 250 hands/hr this is ~20 hours of play per week. However, you can increase your profit split each month by playing a full time schedule. Below are the increases you receive for each milestone:

Monthly Hours Played	Profit Split
<100	50%
100-125	51.5%
126-150	54.5%
151-200	56%
200+	58%

Referral Program

Refer players to our team and earn a percentage of the profits they earn for the first 12 months of their agreement.

# of Players	Equity %*
1-5	2.5%
6+	5%**

*This is the equity from our profits after the player has taken their split. Example: Player A makes \$40,000. Detox is entitled to 50% or \$20,000. You would earn 2.5% which would be \$500.

**The 6th player and beyond is worth 5%. Player's 1-5 remain 2.5%.
